

OVERVIEW

The Faldo Futures is an all-inclusive junior golf competition designed to drive participation and retention among boys and girls aged 7-12. The competition follows a structured pathway, beginning with Qualifying Events held from the end of March to the beginning of May at clubs all across GB&I.

Winners from these events progress to the Regional Finals, which take place during the May half term and selected weekends in June, offering a higher level of competition. The best performers from the Regional Finals will earn an invitation to the Faldo Futures Final, held in August at The Belfry during the British Masters week..

This progression allows young golfers to experience increasing levels of challenge while developing their skills in a fun and competitive environment.
